SAFETY INFORMATION

For a safe and effective use of this product and its accessories, we advise you to read the following instructions in full, and to strictly observe the operating procedures indicated in this manual and refer to the leaflet contained in the packaging of the individual products / accessories. After reading, store it in a safe place for future reference. Incorrect handling of this product could possibly result in personal injury or physical damage. The manufacturer cannot be held responsible for any damage caused by mishandling that is beyond normal usage described in this manual.

This product is intended for adult smokers. This product is not recommended for nonsmokers, young people under the legal age, pregnant or breast feeding women and those experiencing general ill health.

Keep the product and its accessories out of reach of children and minors at all times.

COMPONENTS OF THE PRODUCT

This product is a Hightech product and its components such as the battery, the Type-C USB cable, and the tank / pod part have been specifically made for this product. We recommend the exclusive use of original accessories and replacement parts and components and / or accessories not specifically produced for this device may lead to a malfunction and / or damage to the product and void to the cancellation of the warranty.

GENERAL WARNINGS AND LIMITATIONS OF USE

Do not bring your vape device into contact with water or other liquids. If exposed to the device to be broken or has high temperatures (+5° C / 50 ° C). Avoid using the product in overheated or excessively damp environments. Keep the product and its accessories away from heat sources. Use only Aspire original spare parts and accessories. Always discharge the battery completely before recharging. Carefully read the composition of the e-liquid before use, and do not use the product if you are allergic to any of the components of the e-liquid. Do not use the product if you suffer from respiratory and / or cardiovascular system disorders. Do not use the product during pregnancy or lactation.

Do not ingest or swallow any part of the product or its accessories and do not try to open or tamper with the components of the product or its accessories.

The device does not have any flame to light it. In the case of anomalies, smell of burnt or abnormal deformation of one of the components of the device or its accessories, stop using it immediately and contact Customer Care.

Avoid direct contact of the eyeliquid with the mouth which could happen if you inhale too strong and too frequently or if the tank / pod is too full.

Avoid any unauthorized operations that may damage the product. For an optimal performance of your vape device, it would be advisable to spend at least 20 seconds between one inhalation and the next. We don't recommend using the product while charging.

Do not discard this product in the environment, and dispose of the product components at dedicated collection/disposal points.

SAFETY NOTE

To avoid misfiring, always ensure you either lock or switch off your device when it is not in use. Especially when carrying your device in your pocket, bag or purse.

Contents:
